The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Reference Library
Baldwin Room

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Baldwin Room

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

CLARK'S PRACTICAL AND PROGRESSIVE LATIN GRAMMAR: adapted to the Interlinear Series of Classics, and to all other systems. 1 vol. royal 12mo, half Turkey..... 1.00

The plan of this Grammar is altogether of a practical nature; for, while the scholar is learning the declensions and conjugations, he has them exemplified in lessons extracted from the Classics. Where this method has been properly applied, a more rapid and thorough knowledge of the elements of Latin has always been the result.

INTERLINEAR CLASSICS—*Continued.*

IN PREPARATION :

OID : Interlinear Translation by Hamilton and Clark.

To be followed by School Editions of the other Classic Writers, on the same plan.

The plan of these works is not new. It is merely the adaptation of the experience of many of the best and most inquiring minds in educational pursuits—methodizing what was vague and loose. When the Latin tongue was the only language of diplomacy and scientific international communication, to acquire a knowledge of it was considered of more importance than now. This method was then recommended by Cardinal Wulsey, John Ascham, Latin Secretary to Queen Elizabeth, and by the best *Latin scholar and writer* of his time, John Milton; and in testimony of it John Locke says:—"When, by this way of interlining Latin and English one with another, he has got a moderate knowledge of the Latin tongue, he may then be advanced a little further. *Nor let the objection that he will then know it only by rote, fright any one.* This, when well considered, is not of any moment *against*, but *plainly for*, this way of learning a language. The languages are only to be *learned by rote*; and he that speaks them well has no other rule but that." In teaching classes by *oral dictation*, these works present advantages that no others do.

C. A. STROH & CO.'S Premium Magic Duplicating and Impression Paper.

A PRINCIPLE OF WRITING WITHOUT PENS OR INK.

First Premium awarded to them by the Ohio State Fair, October, 1861.

It is a beautiful article with which to write a letter and obtain a copy at the same time, without the use of pens or ink, rendering it invaluable to persons travelling. It will take the correct impression of any leaf, plant or flower, and is equally adapted for writing on paper, cloth, wood or stone, in the copying of plants, designs, music, &c., (without the use of pens or ink,) with a bone or common stick. TRY IT!

DIRECTIONS.—In writing on paper or cloth, always lay the article you wish to write on, on the table, laying the Impression Paper on the top side; then lay a piece of common letter paper on the outside, ruled to guide in writing, and to take all the wear. In writing on cloth all that is necessary to render it indelible is to wet the part marked repeatedly with a strong solution of alum water, and then dry it in the sun. With careful usage, one sheet of this paper will last for years.

Impression of Leaves.—Lay the leaf on the top side of the Impression Paper, first laying the Impression Paper on a light substance, placing a piece of white writing paper of sufficient size to cover the leaf, rub on the outside of the writing paper until the leaf is sufficiently colored, then lay the side of the leaf that is colored on the article you wish the impression, and by the same process of rubbing you have the exact fac-simile of the leaf. Sheets of all sizes made to order.

TO OUR CUSTOMERS.

Our object in issuing this Catalogue is to furnish our Customers with a reliable price list of the leading College and School Books, from which they can order with confidence.

The BOOK BRANCH of our business being in a great measure confined to works of education, we devote great attention to it, and aim at keeping all the books used in the various public and private Schools and Universities, in both sections of the Province. We are thus continually adding to our list, such books as may be adopted from time to time.

From our long experience in the School Book business, and the possession of the best facilities for purchasing, we are in a position to supply the Trade, Country Merchants and Teachers to their advantage, and we respectfully solicit them to send us their orders, and to call on us when they come to the city.

Although, we do not keep Miscellaneous Books to any great extent, we will pay every attention to orders for any books, when accompanied by cash, ordering them from Europe or the United States, when they are not to be found in this market, and we will always be found ready to give information, or to obtain it, relative to publications and prices.

Persons desirous of having Miscellaneous Books rebound, may have them bound to pattern or according to order, and great care will be taken in the binding of music. Orders from the Country, when definite, will receive prompt attention, and the utmost care will be taken in the packing and despatching of such orders.
